- Anna and Deirdre meeting with each GCGG country representatives, getting feedback from everyone about how process is going so far.
- Before next GCGG meeting, Norway and Nova Scotia will have had their peer reviews → will be good to hear how they and their reviewing countries found the process.
- Sarah: we met with England last week and she shared that it was a helpful meeting. Shared that it is a large time commitment, but worthwhile to learn about what other countries are doing.

4. Task & Finish Group update & discussion on document sent out with agenda David

- Discussed document that came out of the Task and Finish Group, 'Guidance on analysis of implementation data for supporting continuous quality improvement' (see attached)
- Maria suggested adding 'immigration' as a positive reason that parents may leave the program.

5. Research & Evaluation findings distribution Anna

- Just as a reminder that Anna is the one that sends out research and evaluation findings/publications. If you would like something distributed to the whole international mailing list or specific groups, please email Anna!
- The Communications Manager at the National Service Office often sends us publications or news articles about NFP in other countries and Anna usually puts them on the website and/or sends them out to the mailing list.
- If you have any questions about this process, please reach out to Anna.

6. AOCB including future agenda topics:

- Next month: Lindsay and Clinical Pathways presentation
- July meeting: Roianne to present on 'First Nation Innovations'
