## **Nurse-Family Partnership® (NFP) Phase 5 International Continuous Quality Improvement (CQR) Review Template**

*This template should be read in conjunction with the revised guidance for; 'Conducting your Quality Improvement Review (QIR) (Phase 5 countries)'*

*As with all new NFP guidance and accompanying templates, we encourage and welcome feedback!*

- 
1. Briefly describe your country's/province's system for monitoring implementation quality. This could include an organisational chart of who undertakes what key role, the QI model/approach used and how it links into wider organisational QI processes.

2. Your goals and objectives for CQI program during the reporting period:

3. Outcomes and lessons learned from CQI program for the reporting period.

It would be helpful to hear of challenges to the CQI process as well as where success is evident.

Also keep in mind areas you feel the wider NFP community would benefit from hearing about, as there will be opportunities through NFP Clinical and Education forum to share this learning.

4. Outline the innovations tested and subsequent goals for CQI in next year. This can include both international and local innovations.

5. Key Findings and next steps:

It would be helpful to be able to review the materials used for the innovations and share with others. Permission is sought by International Team for them to be attached.
